25X1 5. [] Mr. J.R. Blandford, House Armed Services Committee staff, advised in response to my call that the Chairman is out of town and requested that I meet with him and Mr. Kelleher during the afternoon.

On meeting, I was advised that Chairman Rivers is concerned as to the information and its source on which Mr. McNamara based his press release regarding the Soviet ABM system. I repeated the information provided Mr. Kelleher in my meeting with him of 15 November to the effect that the matter had been treated in the briefing of the Subcommittee in September; that it was a matter for consideration by the United States Intelligence Board in its meeting of 17 November; and that as of that meeting there did not appear to be any specific item of intelligence information that had delegated the release. Mr. Blandford noted that the Chairman considers this a very serious matter and requested for him a brief rundown of intelligence information over the last three years with appropriate notation with regard to those items that had been brought to the attention of the Committee.
